EDUCATION

Carleton University

Ottawa, ON

Bachelor of Science in Computer Science (Honours)

- Relevant Coursework: Operating Systems, Design and Analysis of Algorithms, Database Management Systems, Discrete Structures, Fundamentals of Web Applications.

TECHNICAL SKILLS

Languages: Java, C++, HTML, CSS, JavaScript, SQL.

Frameworks & Libraries: React, Node.js, Spring Boot, PostgreSQL.

Developer Tools: Git, GitHub, VS Code, Linux, GDB.

PROJECTS

Maze Slayer

Godot

A puzzle Hack and Slash game

- Developed a procedural maze generation algorithm with dynamic difficulty scaling. Architected game entities using Object-Oriented Programming design principles.
- A maze that adjusts maze complexity based on player progression, an algorithm for path finding for enemies, Character design, and a pathfinding algorithm for intelligent enemy AI behavior.

Cave Diver

Godot

A dungeon game

- Enemy balancing, and algorithmic spawn patterns to ensure consistent challenge progression.
- An intuitive user interface with clear visual hierarchy. character abilities, Coordinated team tasks across design, art, and programming to ensure smooth project progress.

Personal Portfolio

React, JavaScript

Personal website

- Designed and developed a responsive personal portfolio website, built a single-page application with smooth navigation, dynamic project filtering, and mobile-first responsive design
- Implemented component-based architecture using React with functional components and hooks (useState, useEffect) for efficient state management, Styled the interface using Tailwind CSS, ensuring consistent theming and responsive layouts across all device sizes
